

REMARKS

Applicant requests that the amendments indicated above be entered into the application. The amendments to Paragraph 19 are to correct typographical errors and to add reference to a side of a cut that is clearly shown in the drawings, but was inadvertently left out of the description.

In the Amendment dated December 14, 2004, applicant cancelled drawing Fig. 7, 8, and 9 and cancelled specification Paragraphs 27-29 which described Figs. 7, 8, and 9. However, applicant has found that Paragraphs 15, 16, and 17, which were the description in the drawing description section of the application had not been cancelled and that reference was made to Figs. 7 and 8 in specification Paragraph 24. Applicant cancels specification Paragraphs 15, 16, and 17, and amends Paragraphs 13 and 14 to be consistent with the deletion of Paragraphs 15, 16, and 17. The proposed amendments to Paragraph 24, deletes the references to Figs. 7 and 8. It also corrects a reference to Fig. 4 that incorrectly referred to Fig. 3.

The requested amendments merely clean up the application and should be proper to enter after allowance.

Please charge any additional fees due or credit any overpayment to Deposit Account 13-1175 of the undersigned.

Respectfully,

Robert R. Mallinckrodt
